Educational Services

Supporting the Home school Community

Viv believes is that all learning should be fun! She brings 34 years of teaching experience with her to serve the Austin area. She began home schooling in 1991 and in 1999 started Standards of Excellence to serve the home school community. She is passionate about the Lord and teaching...

Viv has developed a style of teaching that implements creative and kinesthetic methods that make lessons fun and interactive! She delights in working closely with students and is eager to enhance their understanding of any subject!

Viv teaches several different academic development subjects in her regular school-year: courses of SAT, Revised PSAT, ACT, Study Skills, Critical Thinking, and Reading Comprehension. She is delighted to offer summer semester courses to help students who have difficult schedules. Viv has adapted a few of the most popular courses to prepare students for advanced subjects.

The PSAT: *The PSAT/NMSQT is a standardized test administered by high schools across the country, and any sophomore (10th grader) or junior (11th grader) who would like to take the test can do so in October of the school year. The PSAT/NMSQT serves two purposes:*

- The PSAT/NMSQT is practice for the real SAT, which most students will need to take in order to apply for college. This practice for the SAT is useful for both sophomores and juniors.
- The PSAT/NMSQT is used as the basis for qualification in the prestigious National Merit Scholarship Program in a student's junior year. Only Students who take the PSAT/NMSQT during their junior year may be eligible for the National Merit Scholarship Program.

Standards of Excellence has developed a course to help your student prepare for the challenge! Over the course of 10 weeks, we'll lay a foundation for the SAT by learning the PSAT skills and strategies necessary to excel in all the different types of questions and test areas of Critical Reading, Writing and Math. Students will take three practice tests to measure their growth.

We should always believe that students CAN become SUCCESSFUL and OUTSTANDING in their academic, spiritual and personal quests!

Education is often seen as a roadmap of subjects, courses, or tasks that once they are checked off, we deem that the student is ready to advance to the next level academically. However, it is the students' APPROACH to learning that truly governs their competence!

Education is not the filling of a pail, but the lighting of a fire!

William Butler Yeats

It is vital that we train students how to become SELF-DIRECTED learners toward whatever endeavor they undertake.

Study Skills Intensive is designed to help students approach their education seriously and to achieve laudable personal goals! We teach them time-tested skills fundamental to attaining success and create the momentum for them towards rapid and elevated academic advancement. Students will be inspired to apply their talents, instructed as to how get the most out of every learning opportunity, and shown how to retain information so as to integrate it into future endeavors.

Through *Standards of Excellence*, Viv Lynn has been teaching and tutoring students over 30 years; she can spark a passion to learn and create a readiness to achieve. She has formulated this new course for 7th-11th graders to spur them to the self-directed education process.
